

Planning Fill-in Form

Goal	Measures	Timescale
Modeling early language games	Comparison with actual parent-child dialogues	12 weeks

Objectives	Measures	Timescale
1. Preparation	Orientation	5 days
2. Corpora / representation	Data for model	6 days
3. Implement response generation mechanism	Implementation of model	9 days
4. Evaluate	Assessment of model	3 days
5. Report		6 days

Tasks	Measures	Timescale
1.1 Literature study	Increased understanding	3 days
1.2 Select corpora	Dialogue fragments that will be used as seed for model	2 days
2.1 Design representation	A representation adequate to model these dialogues	2 days
2.2 Annotate corpora	Application of this representation to the data collected	4 days
3.1 Implement analysis of parent utterances	Interpreting parent utterances in the selected representation	4 days
3.2 Implement child responses	Transforming the representations into novel responses	5 days
4.1 Comparison with actual parent-child	Subjective judgement of	3 days

dialogues	plausibility	
5.1 Write report and presentation		6 days
